

Regional VARIETIES

Mountain Wildflower Our regionally-sourced Mountain Wildflower honey has a rich, floral flavor that varies from season to season. This dark honey is rich in minerals, and is preferred by professional bakers for the flavor and aroma it brings to recipes.

Orange Blossom Our premium Orange Blossom honey is made in the flowering California orange groves. The sweet citrus flavor of oranges is imparted to this honey from the nectar the bees gather. This unique and fruity honey is great in salad dressings, over yogurt, or any dish that benefits from a sweet citrus accent.

Pacific Northwest Blackberry Our premium Blackberry honey is gathered by bees from the blackberry patches of the Pacific Northwest. It's a healthy sweetener for all your cooking, and because it's from local farms, it is also good for the environment. Its rich, warm flavor is perfect for sauces and baking.

Pacific Northwest Buckwheat Gathered by bees in the fields of robust Northwest Buckwheat, this honey is exceptionally dark and rich in minerals. Its a strong flavor makes an excellent compliment to waffles and pancakes.

Pacific Northwest Clover An environmentally-friendly choice from the pastures of the Pacific Northwest, our Clover honey is a premium honey with a light flavor and amber color. This is the honey you grew up eating. Try it in smoothies, on yogurt, or with tea.

Pacific Northwest Fireweed Fireweed is a magenta-colored wildflower that thrives in the high forest clearings of the Cascade Mountains. Fireweed honey has a distinct flavor: light, sweet, and a touch of spice. Enjoy with yogurt or tea. *Seasonal*

Pacific Northwest Meadowfoam Meadowfoam is an herbal plant grown in the Willamette Valley of Oregon for its oil, which is used mainly in health and beauty products. However, this honey's light amber color and delicious, vibrant vanilla flavor makes a great tea compliment as well. *Seasonal*

Pacific Northwest Raspberry This lightly sweet, Northwest honey has a mild floral essence and a warm, pleasant aroma. It makes a wonderful compliment to tea, and an excellent addition to sauces and salad dressings.

NEW Raw Pacific Northwest Blackberry A raw version of our popular Blackberry honey made in the blackberry patches of the Pacific Northwest. Being raw, it retains more of the blackberry essence and subtle flavors. This honey brings back memories of mom's homemade pie and warm summer days.

NEW Raw Pacific Northwest Blueberry A honey like no other! Blueberry inhabits the soul of this sweet amber honey, with hints of spice rounding out the flavor. Take our word for it, this is something special. We love it just by itself, but it also goes great with floral teas, breads, and fresh fruit.

From Time to Time we have seasonal varieties as well, like our famous Poison Oak honey. Call us for availability.

FROM Around the World

Baker's Light Amber Our Baker's grade Light Amber honey is blended from select Northwest and imported honeys to achieve a consistent color and flavor. Our Baker's Light Amber is a sweet, mild flavored honey that is competitively priced in large quantities for commercial bakeries and food manufacturers.

Clover Blend We blend Clover honeys from various sources to create a flavorful table honey that is less sweet than our White Clover honey.

Organic Clover 🌱 We're proud to bring you a premium Clover honey that preserves the benefits of organic eating. Enjoy the light, smooth flavor of this certified organic classic in your cooking or as a spread.

Organic Tropical Blossom 🌱 Organic Tropical Blossom honey is harvested in the remote tropical regions of Brazil and India. Supporting these rainforest farmers helps ensure the preservation of these lands. This high quality organic honey is a very flavorful, multi-floral honey. It is perfect for all types of baking and beverages and tastes wonderful right from the jar.

Raw Organic 🌱 We're proud to bring you a raw, certified organic honey that meets European standards for bee pollen content. Because of the unique way our honey is handled, it retains the bee pollen normally lost during processing. Our Raw honey is never heated over 115°F and is only strained, never filtered.

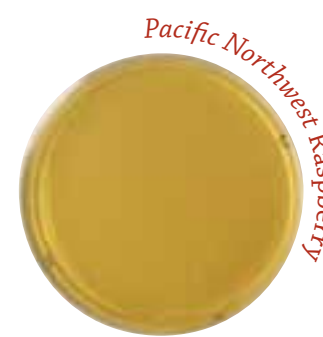

White Clover Produced from sweet clover from around the world, always sweet and mild.

About Our Honey

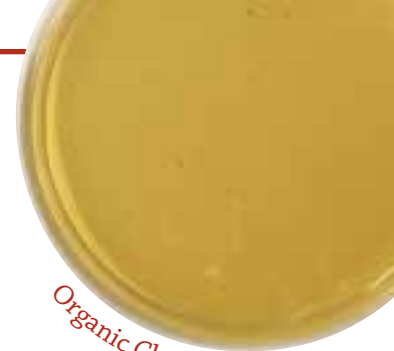

At GloryBee, honey has always been our heart. From our founder's first beehives, to our status today as one of the Pacific Northwest's largest honey suppliers, we have always taken great pride in the quality and flavor of our honey. We work closely with beekeepers, large and small, to bring you the best and most flavorful honeys available. Among our treasured collection you will find many unique, raw, organic, and specialty varieties of GloryBee Honey you won't find in the grocery store.
